LANDSCAPING & DESIGN SERVICES

We offer three levels of landscaping and design services to customize every homeowner's landscaping needs!

Our services include a professional design consultation, project management, plant installation, landscape lighting systems, seasonal color programs, fence and deck installation, water features, retaining walls, and stone veneers and boulders.

LEVEL 1 - Flower Beds

If you would like to create year round color in your yard, we will custom design a plan for flowers and small plants that will enhance the beauty and exterior of your home. We will all suggest and recommend drought-freindly options to ensure your flower beds will thrive through our hot Texas summers.

Starting between \$1500-\$1800

LEVEL 2 - Partial Yard

If you would require more than just a few flower beds, we can focus on larger areas around your yard that may need a more intense "face-lift". Our design services will be customized to complement the curves and architecture your home to give you maximum curb appeal.

Starting between \$1800-\$2700

LEVEL 1 - Full Yard

If your entire yard needs a complete overhaul, we can help with that too! Call us today to schedule your professional design consultation!

Starting between \$2700-\$10,000
